You can watch entries so that you can quickly access them from the dashboard and be automatically informed about changes.

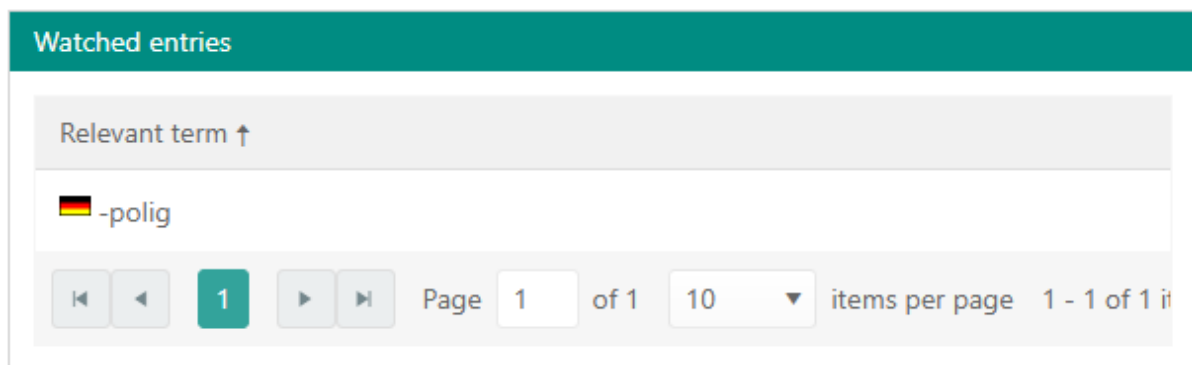

To do so, open the entry that you would like to watch and select the **Watch** button on the right-hand side of the screen.

After activating the watch function, the button is displayed as follows:

Your watched entries are listed under **Dashboard** -> **Watched entries**.

By double-clicking on an entry in the list, it will automatically be opened.
